Mobile: [+91-6205013021](tel:+91-6205013021)

SKILLS

Programming Languages: C, C++, JavaScript, SQL, HTML, CSS, Java

Frontend / Backend: React.js, Tailwind CSS, UI/UX Design, Node.js, Express.js, RESTful APIs

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Vercel, Agile Development

CS Fundamentals: DBMS, Operating Systems, Computer Networks, OOP, Data Structures & Algorithms (DSA)

Soft Skills: Analytical Thinking, Communication, Collaboration, Critical Thinking, Leadership, Time Management

PROJECTS

Clara Med – Healthcare Management System | [Link](#)

Mar'25 – Sept'25

- Architected and deployed a full-stack healthcare appointment platform using React.js, Node.js, Express.js, and MongoDB, enabling patients to book, reschedule, and manage appointments with real-time status updates across roles.
- Implemented role-based access control (RBAC) and JWT authentication to enforce secure session management and data privacy for patients, doctors, and administrators within a unified system.
- Integrated Razorpay payment gateway to facilitate seamless digital transactions for appointment fees, reducing payment friction and supporting multiple payment modes for end users.
- Optimized RESTful API performance and WebSocket-driven live notifications, improving system responsiveness and enabling real-time synchronization of appointment data across all user dashboards.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Razorpay API, WebSocket, JWT

Growing India – Agricultural Awareness Platform | [Link](#)

Mar'25 – Sept'25

- Designed and built a fully responsive agricultural awareness web platform using HTML5, CSS3, and JavaScript, with a mobile-first layout ensuring accessibility across diverse rural and urban devices.
- Developed modular dynamic content rendering to showcase government schemes, farming techniques, and rural development resources, improving discoverability and reducing average page load time.
- Deployed the project on a live domain with optimized assets and cross-browser compatibility, ensuring consistent performance and scalability to serve a broad audience across varying network conditions.
- Structured UI components with clear navigation and semantic HTML to maintain ADA-compliant accessibility and improve engagement among non-technical agricultural users.

Tech Stack: HTML5, CSS3, JavaScript, Responsive Design, Domain Deployment

TRAINING

CodeSmart – Data Structures & Programming Training | [Lovely Professional University](#)

Jun'24 – Aug'24

- Completed an intensive 10-week program on Data Structures, Algorithms, and programming fundamentals using C, C++, and Java, covering core concepts from arrays and linked lists to recursion and sorting algorithms.
- Strengthened problem-solving skills by implementing 15+ core data structures including stacks, queues, trees, and graphs, applying each to competitive programming and real-world computational problems.
- Developed a strong foundation in algorithm design, time/space complexity analysis (Big-O), and systematic debugging techniques applicable to software engineering roles and coding interviews.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** — [Oracle](#) May'25
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate** — [Oracle](#) May'25
- Oracle Data Platform 2025 Certified Foundations Associate** — [Oracle](#) May'25
- Java Programming (72 Hours)** — [iamneo](#) Jan'25 – May'25
- Automation Anywhere Certified Essentials Automation Professional** — [Automation Anywhere](#) May'25 – May'28

ACHIEVEMENTS

- Earned 3 Oracle Cloud certifications across AI Foundations, Cloud Infrastructure, and Data Platform in a single month (May 2025), demonstrating rapid self-learning ability and commitment to industry-recognized cloud and AI credentials.
- Developed and deployed 2 full-stack production web applications — Clara Med and Growing India — within 6 months, integrating payment gateways, real-time APIs, JWT authentication, and live domain hosting as a pre-final year student.
- Secured First Position in a Group Discussion (GD) competition conducted at Lovely Professional University, demonstrating strong communication, critical thinking, and leadership skills.

EDUCATION

Lovely Professional University

Bachelor of Technology – Computer Science and Engineering; **CGPA: 7.80**

Since Aug'2023

Punjab, India

K.T College

Apr'2020 – Mar'2022

Intermediate; **Percentage: 71.8%**

Motihari, Bihar

Devasthaliya Vidyapeeth

Apr'2019 – Mar'2020

Matriculation; **Percentage: 73.8%**

Motihari, Bihar
